PARTY LAND

FIRST BRIEF ABOUT LAND

PARTY LAND is a project for the Gaming, Gambling and Metaverse world and the issue that we wish to solve is the fast transaction issue and the ability to gamble and manage your daily life on the metaverse. that those types of websites have and the Anonymous Issue that users suffer from when they want to stay anonymous and to do fast transactions on the gambling and metaverse sites.

The metaverse of party land will contain 160,000 lands with the ticker PLD and it will be a metaverse for gaming, gambling and daily fun and time spent on the metaverse. The mission is that the Pala Coin with the ticker PALA will be used as the payment method on the metaverse when users surf and enjoy the metaverse and when they gamble on Pala casinos and game centers that will be located inside the metaverse.

Our Blockchain will be anonymous and highly Secured in Order to make sure all transaction will stay on the same Party Land Metaverse, and the network will be anonymous and fast transacted between users.

Users that will buy tokens of PALA will get it at start price of 0.5 USD.

Our technology will be based on ERC 20, and we wish to start the development of the metaverse when we finish the ICO.

PALA & PLD aims to create a Profit-Sharing platform built on trust and reputation with the Metaverse ecosystem. Security is the priority within our decentralized platform. We utilize the popular ERC 20 block chain technology allowing other developers to join seamlessly and without worry.

GPN contributes to redefining the core trends of crypto currency in the present and future to generate positive changes in the way that crypto is viewed & admitted in the next 10 years.

Our goal is to sell the 480,000,000 Coins in ICO and later.
We will keep 120,000,000 to team, advisors, and marketing companies

PARTY LAND

1. PURPOSE

Become the largest and most trusted decentralized metaverse for gaming, Gambling, and daily life fun platform for all users

2. PROBLEM

Your Gaming network, Your Gambling Network, your online activity, and even your online presence is a 100-billion-dollar industry curated by the very companies you trust to guard your privacy.

Don't you think it should be Easier and more anonymous to Play Online or to Watch Adult Content or to surf on the metaverse and gamble without Footprint?

These large gaming and gambling companies have created a platform for gaming and gambling but only thing that they didn't created is Anonymous behave to those who want to stay Anonymous online and still enjoy the metaverse and its benefits and to gamble and still stay safe and secure from any treat

PARTY LAND

Why they should Know Who We Are? We Want to Stay Anonymous!!!

The truth is they shouldn't. Party Land has the answer!

PARTY LAND was built on the idea that privacy, User transparency, and data security should be blocked for Several Industries like gaming (casino/poker/bingo/sport/lottery/porn/adult/etc.) and the metaverse industry process.

We want to help you take back the control and have a say about your privacy.

So, we've created a decentralized Anonymous metaverse network, separate from those corporations that allow exactly that. You have a say, you get compensated, and above all you take back the power with every click and every social connection.

More than simply connecting truly discover...

Help us break apart their public system by joining the digital Revolution Today!

JOIN PARTY LAND!

PARTY LAND

2.1 THE CURRENT METHOD OF ONLINE PUBLICITY FOR GAMING AND ADULT REVEAL THE USERS WHEN THEY WANT TO BECOME PAID USERS

While users play in demo mode, they stay Anonymous but when they want to become premium users they need to pay and for that those gaming and adult companies don't have privacy and they by force make the users upload identifications like passport copy or id copy so they could know more about you before you pay them with some payment method like credit card or PayPal that knows all about you before they approve you!
By using PALA COIN, they will not need to know who you are anymore! You will be able to pay them and still stay Anonymous and keep your funds safe and secured.

We got to conclusion that the only way for keeping the users safe and Anonymous will be by PALACOIN as only in payment those specific companies demand your identity!

3. SOLUTION

Since its early inception, Anonymous network has quickly gone from a simple novelty used only to keep friends updated and included on our daily lives to becoming a growing source of entertainment, gaming, and gambling. And as nearly 1 billion people now utilize gaming and adult network in some shape or form, its impact on life cannot be denied. From those nearly 1 billion active users, volumes upon volumes of data are generated, saved, and often sold t the highest bidder. Essentially selling people's personalities, secrets, and lives to corporations that utilize that information to create targeted ad campaigns. And this happens every moment of every day.

Party Land And Pala Coin aims to change that and redefine how gaming and adult network and behave interacts within our lives! Stay anonymous.

Party land is more than just an anonymous metaverse network for gaming and adult!

PLD is so much more than another simple addition into the growing line of gaming and adult networks available. It is the beginning of a digital revolution.

PARTY LAND

This brand new form of crypto currency can be used for a wide variety of uses and can even be utilized to fund grass roots campaigns and movements, allowing them to reach more people and larger audiences. To celebrate the launch and welcome the coming digital revolution, PARTY LAND is holding an open offering to those entire ready to join something special and different. This special occasion, only available now, will set the precedent for the entire value of the PALA. And once it's over, no more PALA tokens will ever be produced.

So if you are ready to be a part of something special and ready to take the power back, join us in the digital revolution.

4. OPPORTUNITEY

Consumers demand for better privacy and data protection has created a demand for a service that puts control, profit, and privacy back into the hands of the consumers. We are poised for yet another great disruption in marketing and advertising. The old and increasingly ineffective method of advertising will come to an end. The old way will be replaced by the next waves of innovation.

At the forefront of the wave, PARTY LAND has positioned itself ready to disrupt the old process. We will create more transparent and open methods for conducting business in today's global market. PARTY LAND innovative technology creates a scalable, anonymous, and secure secured metaverse network utilizing large amounts of data while still ensuring privacy.

PARTY LAND

WHAT CAN I DO WITH PALA?

In-system tokens to be used by consumers

In addition to the benefits laid out in this paper, PARTY LAND is introducing an innovative incentive program for consumers using tokens. These Tokens are used throughout the system in order to facilitate transactions within the gaming and gambling metaverse network

Put the power back into your hands

Pala tokens are crafted in such a way that the entire process is secure yet transparent. This process leads to a greater sense of trust within the system

PARTY LAND

5. ABOUT PALA

PALA is a digital currency designed to be used within PARTY LAND Metaverse Network– a new, private, and secure platform that offers an integrated, decentralized market, complete with its own secured platform for gambling and gaming and enjoy he metaverse features and benefits.

6.PALA COIN NETWORK ADVANTAGES

✅ We have a strategic plan that puts our users and token holders first.

✅ We have a segregated cloud server environment that is safeguarded using cutting edge security systems.

✅ We will offer a superior user experience and superior customer support for the users in our ecosystem. Our team designs the system for scalability.

✅ We offer anonymous transactions globally. Because we do not transact with banking institutions, we do not require ID verification. Everything is done using
   digital currency.

✅ We have an experienced and capable team that can manage complex technologies and business challenges.

PARTY LAND

7. ESTABLISHED PRODUCT

The PARTY LAND Anonymous Metaverse Network incorporates modern technologies that secure the most popular features used in today's privacy networks.

We have an experienced team and a product that is already built. Our team has many years of experience designing systems that are secure and capable of managing high volumes.

THE PARTYLAND METAVERSE PLATFORM

8. STRATEGY

Through the invention of the internet, businesses found a more Convenient way of protecting customers with party land.

As we are about to enter the fourth decade of using computer net-works, the ways in which advertisers reach their targeted audiences have not undergone much innovation.

Despite the poor results, many advertisers still use the old methods to advertise their products. Businesses still elect to waste funds that could be allocated towards more effective marketing.

PARTY LAND

The unfortunate truth is that many businesses are wasting precious funds to reach potential clients. The entire process undermines the experience between consumers and businesses.

We see consumers who are less likely to respond to the constant barrage of unwanted advertisement. Both parties gain nothing from the entire experience.

In direct response to this ever-expanding problem, PALACOIN has set out to reduce the need for such intermediaries while increasing companies' ability to directly reach their desired target audience.

Using PARTY LAND innovative decentralized Gaming and Adult Metaverse network allows businesses to keep the customers anonymous, and both sides stand to gain. On the consumers' side, we see an increase in privacy as their browsing habits and online acts in gaming industry and adult industry are no longer sold to the highest bidder. Companies benefit from knowing that their customers remain anonymous, and they don't need be demands by organization of several governments

9. MARKETPLACE

The PARTY LAND anonymous metaverse platform contains important ecommerce features. The marketplace will allow users stay anonymous, and no one will even know that they use PALA in life

10. TRANSPARENCY

PARTY LAND will safeguard user privacy and avoid the misuse of community data. When there is a need for additional development, everything will first be presented to the community

PARTY LAND goal is to be the anonymous platform where data is owned by the users. The community drives the network

- 480,000,000 TO ICO and Sales
- 120,000,000 TO Team, Advisors and Marketing Companies

PARTY LAND

EXPLAINING PARTYLAND

Partyland is a cross-chain multi-Metaverse platform that focuses on singular property listings that are available to be purchased or sold. Our technology is patent-pending and we plan to launch in Q1 2023.

Multi-Metaverse land listing services such as Partyland provide the platform and technology that allow Metaverse landowners, Metaverse platforms, and other third-party interests to combine their listings into a single database that attracts more Metaverse buyers.

CROSS-BLOCKCHAIN CAPABILITIES

The platform provides cross-blockchain capabilities allowing for the land on different token platforms (with different blockchain protocols) to exchange hands and the platform facilitates the multi-blockchain transactions simultaneously. To make it even easier for users to transact, Partyland will also offer its own cryptocurrency.

CORE PLATFORM FEATURES

Party land will have multiple features such as contract and legal services using blockchain technologies, Metaverse land and property title services, research, statistics, development, and marketing material.
Party land gives you the chance to buy, sell, swap, advertise, and market any property in the Metaverse

PROJECT DETAILS

Network of Experts

At Partyland, we have created a network of experienced experts equipped with advanced skills and knowledge to create a singular cross-chain platform to buy and sell land in the metaverse. ThePartyland network of experts includes the following

- Real Estate Advisors
- Blockchain Advisors
- Blockchain Developers
- Lawyers
- Marketers

HOW ARE WE DIFFERENT?

Our preliminary patent searches resulted in no other companies such as Partyland. Therefore, as Partyland is patent-pending and once the patent is issued, we would be the only player with a patent. At the moment we're the only platform that offers the ability to create a single access point/database of land for users to buy and sell. Being a new space and an ever-increasing number of landplatforms springing up a Zillow-type service would provide for a more seamless user experience.

The future idea includes a launch pad where new games and platforms would be able to leverage Partyland.

BUSINESS MODEL

Origin will provide its users with innovative tools and helpful guides empowering them to make good decisions while leasing, remodeling, buying, selling, renting, or financing homes.
